# President's Address

It is my great honor and privilege to host the 49th Annual Meeting of the Japan Society of Aesthetic Plastic Surgery (JSAPS) and the 157th Scientific Meeting, to be held on November 5–6, 2026, at the Ryukyu Hotel & Resort Nashiro Beach, Okinawa, Japan.
I would like to express my sincere gratitude to the board members, councilors, and all the members of the society for their kind support and trust in appointing me as President of this memorable meeting.

The theme of this meeting is
"Mastering Champuru: Embracing Diversity and Fostering Creation."

The word *"champuru"*, well known from "Goya Champuru," is an Okinawan term meaning "to mix."
During the great maritime trade era of the Ryukyu Kingdom in the 15th century, the Okinawan people actively engaged with many cultures around the world, absorbing and integrating their influences to form a unique *"Champuru culture."*

As aesthetic surgeons, we too embody the spirit of *champuru*—combining our experience, knowledge, and technical skills, while refining our surgical planning and intraoperative innovations each day.
Here in Okinawa, the home of *champuru*, I sincerely hope that this meeting will provide all participants with new insights, encourage diversity in surgical techniques, and inspire the creation of innovations that lead to even greater excellence.

The meeting will be held in November to avoid the typhoon season.
Amidst the pleasant autumn climate, I am confident that you will be able to enjoy not only our academic discussions but also Okinawa's stunning natural beauty, rich culture, exquisite cuisine, and warm hospitality.

I look forward to welcoming many of you to Okinawa and to sharing an inspiring and memorable meeting together.
